

CAKES AND BISCUITS

- **Metaphor.**

Learning metaphors & transference of name to some other thing,
like a butterfly caught on paper
Do you really understand?

Use metaphors: learnt in math or in any other language

adding,
subtracting
derivations and anti-derivations to find the
acceleration of the velocity of a moving object or
to decide on the colour of the next pair of pants
I buy.
Statistics, and interpret scores.
comment on the economic situation:
graph.
and pie chart, the reclining dollar.

objects

Drawing of a knife, instead of a real knife. So that you don't scare
people.
